01

Introduction

CLUMAZA is a next-generation meme-driven cryptocurrency built on Ethereum, inspired by the mythological fusion of three legendary spirit animals representing the host nations of the World Cup 2026 era.

It is not just a token. It is a narrative asset — a cultural symbol forged for virality, community dominance, and generational storytelling. CLUMAZA exists to merge football culture, meme energy, and decentralized ownership into one unstoppable digital movement.

"Not beast. Not machine. Not myth. It is evolution."

02

The Apex Guardian

The Origin of CLUMAZA

Forged from the fusion of three ancient spirits — CLUTCH the Eagle of the United States, MAPLE the Moose of Canada and ZAVU the Jaguar of Mexico, — CLUMAZA was born as the Apex Guardian of the World Cup 2026 era.

Created from the spirit of the nations hosting the world's greatest tournament, it represents the unity of strength, speed, and vision. A legendary warrior forged to protect the stadium arena, ignite the football fans, and inspire a new generation of fearless champions across the world.

GUARDIAN CORE	ATTRIBUTE	MEANING
Evolution	Transformation	Born from three becoming one — a new apex form.
Power	Unstoppable Force	The combined might of jaguar, eagle, and moose.
Victory	Cultural Dominance	A symbol built to outlast the tournament.

03

The Three Spirits

Each spirit contributes a foundational dimension to the CLUMAZA identity. Together they form the Apex Guardian — a composite force that no single animal alone could embody.

SPIRIT	NATION	TRAITS
ZAVU — The Jaguar	Mexico	Speed · Instinct · Aggression
CLUTCH — The Eagle	United States	Vision · Precision · Dominance
MAPLE — The Moose	Canada	Strength · Endurance · Power

CLUTCH — The Eagle From United States

A sky ruler with unmatched awareness and tactical control. The Eagle's vision shapes the long-term trajectory of the project — scanning horizons, identifying opportunities, and striking with precision from above.

MAPLE — The Moose From Canada

A living fortress, unbreakable and eternal. The Moose embodies the community's resilience — the foundational strength that holds the CLUMAZA ecosystem steady through any market condition.

ZAVU — The Jaguar From Mexico

Born in silence, striking with unstoppable precision. The Jaguar represents the relentless forward momentum of the CLUMAZA community — patient, calculated, and explosive when the moment demands it.

04

Project Vision

CLUMAZA is designed as a culture-first crypto movement, where storytelling, meme power, and community identity are more important than traditional financial speculation. It is not built to exist as a simple token cycle, but as a living cultural IP that evolves across internet communities, sports fandoms, and decentralized ecosystems.

The core mission is to transform CLUMAZA into a multi-layered mythos — a character-driven universe that people don't just trade, but participate in, create for, and identify with.

Instead of being confined to crypto markets, CLUMAZA exists as a cross-cultural symbol of dominance, unity, and viral energy.

DOMAIN	CLUMAZA ROLE
Crypto Markets	A community-owned meme token with zero tax and burned liquidity.
Football Culture	The unofficial Guardian mascot of the World Cup 2026 era.
Meme Ecosystems	Viral content engine designed for X, TikTok, and beyond.
Digital Storytelling	Animated lore, NFT collection, and character-driven narrative.
Community Media	Holder-driven creative output across all major platforms.

FINAL VISION STATEMENT

CLUMAZA is not designed to be a typical crypto project. It is designed to become:

- A digital myth
- A sports-era symbol
- A viral internet character
- A community-owned cultural IP

It lives across markets, memes, football, storytelling, and decentralized media simultaneously — evolving as long as the internet continues to create culture.

CLUMAZA is not static. It is alive.

05

Token Overview

The CLUMAZA token is engineered for simplicity, trust, and cultural utility. Every technical decision reinforces the community-first mission: zero tax removes friction, burned liquidity ensures permanence, and a renounced contract delivers true decentralization.

FIELD	DETAIL
Name	CLUMAZA
Symbol	\$CLUMAZA
Network	Ethereum (ERC-20)
Total Supply	26,000,000,000
Buy / Sell Tax	0% / 0%
Liquidity	Permanently Burned
Contract	Renounced
Type	Meme / Culture Token

06

Tokenomics & Allocation

The supply distribution is designed to maximize community ownership. An overwhelming 95% of total supply enters the market at launch, minimizing insider concentration and establishing genuine decentralization from day one.

ALLOCATION	SHARE	PURPOSE
Public Launch	95%	Open market distribution
Marketing	2%	Community growth & viral campaigns
Guardians Reserve	3%	Ecosystem, partnerships & future utility

95% Public Launch	0% / 0% Buy / Sell Tax	Burned Liquidity
-----------------------------	----------------------------------	----------------------------

07

Liquidity Protocol

CLUMAZA liquidity is permanently burned upon launch. This is not a temporary lock — it is an irreversible action that removes developer control over the trading pool forever.

PRINCIPLE	OUTCOME
Liquidity Burned	No developer can remove or manipulate the LP.
Contract Renounced	No admin functions can be executed post-launch.
Zero Tax	No fee mechanism to fund insider activity.
Full Decentralization	The community owns and controls the token entirely.

Once burned, liquidity cannot be recovered, modified, or accessed by any party. This architectural decision establishes long-term structural stability and builds foundational community trust.

08

Roadmap

CLUMAZA evolution unfolds across four phases, each amplifying the cultural footprint of the project from initial launch to permanent meme legacy.

1	THE AWAKENING <ul style="list-style-type: none">• Token deployment on Ethereum• Liquidity burn execution• Guardian reveal animation• Community launch• Meme viral push
2	THE TRIBES RISE <ul style="list-style-type: none">• Global meme campaigns• Football community integration• Influencer activation• Story-driven content rollout• Viral raids across X and TikTok
3	GLOBAL ARENA <ul style="list-style-type: none">• Exchange listings• NFT Guardian collection• Animated CLUMAZA lore series• Partnerships in sports culture
4	LEGEND STATUS <ul style="list-style-type: none">• Cultural IP expansion• Brand collaborations• Real-world activations• Permanent meme legacy

09

Community Power

CLUMAZA is not owned by a team. It is owned by the legion.

Every holder becomes part of the Guardian force — spreading the myth, building the culture, and fueling the evolution. There is no central authority, no developer multisig, and no insider advantage. The token belongs entirely to those who hold it.

COMMUNITY ROLE	DESCRIPTION
Meme Propagation	Holders spread Guardian lore across social platforms.
Cultural Building	Community creates, expands, and evolves the CLUMAZA narrative.
Ecosystem Fuel	Holder activity drives volume, visibility, and viral momentum.
Guardianship	Each wallet is a node in the decentralized Guardian network.

10

Final Message

CLUMAZA is not just a token.
It is a transformation of meme culture into mythology.
A guardian born from three nations.
A force built for the World Cup 2026 era.
And a symbol that cannot be stopped.

NOT BEAST. NOT MACHINE. NOT MYTH.

IT IS EVOLUTION.
